Re: CC Docket No. 96-45, FCC No. 99-306; July 1st Certification Requirement for
Rural Carriers

Dear Ms. Flannery and Ms. Dortch:

Pursuant to 47 C.F.R. § 54.314, the Minnesota Public Utilities Commission ("MPUC") files its required initial high-cost certification for Midwest Wireless Communications L.L.C. ("Midwest"). On June 30, 2003, the MPUC designated Midwest as an eligible telecommunications carrier in Minnesota.

In accordance with the Federal Communications Commission's ("FCC") requirements in *Federal-State Joint Board on Universal Service, Fourteenth Report and Order, Twenty-Second Order on Reconsideration, and Further Notice of Proposed Rulemaking in CC Docket No. 96-45, and Report and Order in CC Docket No. 00-256*, FCC No. 01-157, the MPUC hereby certifies that Midwest's federal universal service high-cost support for the year 2003 will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with Section 254(e) of the Communications Act of 1934, as amended.

Thank you for your assistance in this matter.

Sincerely,

Burl W. Haar
Executive Secretary

I am addressing you as the Enron chairman of the FCC. For shame, trying to railroad a ruling on centralizing information access to the companies that support you with information, trips, financial support, etc., that have nothing to do with your position to maintain an agency for the entire public, not just those in the BUSINESS of making money on giving information to the public.

You have denied us the floor for public meetings at the FCC.
You have accepted monies for yourself and your staff from the very companies that require rules and regulations
You have limited dicussion time on this very important issue deliberately, in order to railroad through an issue that concerns the entire citizenry -- not just those in the business.
FOR SHAME
